

blended learning Design: Project based Example

In-person activities:

- Project groups meet to begin tasks
- Presentation of new material

™ Teacher: direct instruction for next steps in the project

™ Meets with different groups during class time

™ Prompts students to consider new information from readings and apply if appropriate

Online activities:

- Students complete project steps prior to milestone presentations in class, with clear roles
- Synchronous or asynchronous virtual visits to other institutions, galleries, clinics, etc.

™ Teacher: provides guided questions, reviews responses

™ Check in and steers groups in the right direction
