$$\int x^2 dx = \frac{x^3}{3} + C$$

8. [5 marks]. Find the area of the region bounded by the graphs of the functions

$$f(x) = \sqrt{x} \text{ and } g(x) = x^2 \quad : \quad \frac{1}{3}$$

9. [5 marks]. Find the area of the region bounded by the graphs of the functions
