I am tremendously impressed with Cookshire Elementary's commitment to being a Living School! This is the kind of education leadership that will inspire others to follow and foster schools where students, staff, the community and our natural environments will flourish.

“What is happening at Cookshire Elementary School (CES) is nothing short of inspirational and I wish all children, including mine, could experience it! Their students are “experiencing” as they learn, understanding real-world problems and finding concrete solutions. At CES, teachers and administrators are modeling and teaching sustainable practices and ways of thinking that contribute to the well-being of the community and the environment.
